

Hall effect sensor

KY-003

Technical Specifications

Model	Hall effect sensor
Article No.	SEN-KY003
Chipset	A3141
Sensor type	Hall Effect Transistor
Function	The transistor switches if the module is held in a magnetic field. This can be read out at the signal output as an analog voltage value.
Operating voltage	3,3V
Dimensions	15 x 29 x 7mm
Scope of delivery	Hall effect Sensor
EAN	4250236816784
